REXESS

class D400

Comprehensive pipe systems

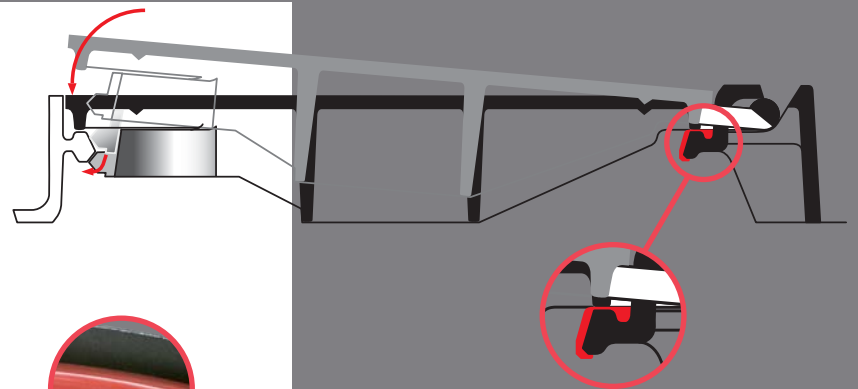

PAM
SAINT-GOBAIN

The carriageways manhole cover **REXESS** for medium duty traffic and periodic inspections : a new innovative solution from SAINT-GOBAIN PAM.

STABILITY **AND** RELIABILITY

The automatic spring bar locking system ensures the stability of the cover in the frame under traffic. If it is left unlocked by the operator, the cover will be locked automatically when the first vehicle crosses it.

New red gasket in composite PEPP (Polyethylene / Polypropylene).

This new gasket design guarantees:

- resistance under traffic **2.6 times**
- resistance to breaking **70%**
- resistance to abrasion **3 times**

higher than a standard polyethylene gasket

NEW ANTI-SKID DESIGN

REXESS has a new surface design with better adherence and markings in compliance with EN 124

SAFE AND ERGONOMIC

■ **The new design** of the hinge allows the opening of the cover at 120° and blocking at 90° when closing, in order to protect the operators against accidental closure.

The cover can be easily handled using the usual tools of the operators (as lever, crowbar). The easy opening of the cover involves two consecutive simple operations to free the spring locking mechanism and lift the cover, with a minimum effort.

Opens at 120°

Blocks at 90° when closing

STANDARDS AND CERTIFICATIONS

IO-CERT

The new **REXESS** cover meets the requirements of the standard EN 124 certified by three European bodies

The manhole cover is manufactured in a foundry certified ISO 9001 and ISO 14001.

REXESS - ACCESSORIES: ANTI-INTRUSION AND ANTI-THEFT

■ Anti-theft SPLINE

The hinge of the cover has been designed to receive an anti-theft spline that prevents any extraction of the cover from its frame. The spline must be installed during the embedment of the manhole cover.

Note: the installation of the antitheft spline cancels the 90° blocking function.

■ Anti-intrusion kit

screw which has a unique... For locking and unlocking

The anti-intrusion system... bar in galvanized steel... can be installed on site in... instructions.
